Profile

Aspiring Software Developer

Hello! I'm Paul Azzopardi, passionate about impacting the software development and web development world. I'm studying for my Bachelor of Science in Information Technology (Honours) (Software Development) at the University of Malta.

Skills:

- Programming: Java, Python, ABAP, C, C#, C++, SQL, .NET, UI5, SAP Fiori
- Web Development: HTML, CSS, JavaScript, SEO Optimization, React
- Fullstack Development, API Integration (Amazon, Firebase, Google Cloud)
- Python GUI Applications
- App Development: React Native
- Software Design & Development
- IT Troubleshooting
- Microsoft Office Suite Proficiency

Experience: At Iteanova Tec Ltd., as a Junior Software Developer, I honed my skills in ABAP, FIORI, and UI5, contributing to website redesigns with a focus on responsive design and SEO. My IT support role at Media.Link Communications enhanced my network troubleshooting capabilities, enriching my software and web development proficiency.

Personal Qualities: I am dedicated to continuous learning and adapting to new tech. My strong communication skills and understanding of client needs make me a valuable team player and client-oriented developer.

Employment

JR Software Developer

Jul 2022 – Present

Iteanova Tec LTD., Santa Venera, Malta

Responsibilities:

- Specialized in ABAP development within the SAP framework, creating tailored applications.
- Collaborated within agile teams, contributing to efficient project completion.
- Developed and sold ABAP applications, addressing client needs and adding value.
- Conducted unit testing and ensured software quality with minimal issues.
- Prepared clear development documentation and guidelines for clients.
- Spearheaded FIORI and UI5 initiatives for enhanced user experience.
- Led the company website redesign, coding in HTML, JavaScript, and CSS.
- Implemented SEO strategies to improve search engine ranking.

Achievements:

- Key role in developing and selling ABAP applications, contributing to growth and client satisfaction.
- Led FIORI and UI5 initiatives, improving user experience in SAP-connected web applications.
